

# STAKEHOLDER OPINION ON DEPARTMENTAL INFRASTRUCTURE

Boundary protection and prospective planning for optimum utilization of infrastructures and associated land.

Assess availability of infrastructures around farm growth clusters.

Create empowered infrastructure management committees with earmarked fund for up keep and day to day functioning.

Extend timing of outpatient care and prevent infrastructures to remain idle for major part of the day.

Enhance provision of refurbishment of infrastructures and improvement of work environment thereof.

Support functioning of mobile units for enhancing the reach of services.

There is a need for boat service in char ( riverine ) areas.

Equip service teams near *khuti* areas to provide services without restraining animals.

Modernize dispensaries as per technical / standardized specifications. Upgrade / set up state of art District Veterinary Centers as be VCI practice regulation. DVC's to play role of controlling center for all productivity, disease and animal control services.

Develop residential facilities for veterinarian near cities / towns instead of remote areas ensuring regular travel of vets to remote areas.

Ensure partnerships with national level organizations for CVME, leadership, project management and skill development related training infrastructures.

Rejuvenate select govt farms for breed conservation, high quality commercial breeding and livestock asset distribution.

Ensure financial freedom of farms. Strengthen fodder farms for technology demonstration e.g. silage, hydroponics, production of seed, cultivable fodder for disaster relief.

Develop select farms as commercial farm incubation center for first generation entrepreneurs.

Develop select farms to launch farm internship / apprenticeship programs for youths interested in career as "farm supervisors"
